RUUTU NORDIC VÄRI TONES

We recognise the increase in open-plan collaboration spaces, often showcasing hard surfaces with minimalistic, colourful designs. NORDIC VÄRI TONES is both a bold and vibrant palette with soft naturals too that will bring personality to any space.

Heavy Wear – NORDIC VÄRI TONES has a 10year commercial wear guarantee and has a 0.7mm wear layer, designed to give excellent functionality in heavy wear areas such as break out zones and communal areas.

Design & Appearance – With its carefully selected block colours, this unique collection of bright and brave tones or calming pastel hues, whether creating soft minimalism or vibrancy to inspire creativity, gives you many flooring possibilities.
